Cumulative Contents

Information for Contributors *vii*

Regular Papers

Antiplatelet effects of Clausine-D isolated from *Clausena excavata*
C.-C. Wu, F.-N. Ko, T.-S. Wu and C.-M. Teng (Taiwan) 1

Characterization of the zona pellucida glycoproteins from bovine ovarian and fertilized eggs
S. Noguchi, N. Yonezawa, T. Katsumata, K.-i. Hashizume, M. Kuwayama, S. Hamano, S. Watanabe and M. Nakano (Japan) 7

Cuticle-catalyzed coupling between polyamino acids and *N*-acetyldopamine
G.B. Wybrandt and S.O. Andersen (Denmark) 15

Studies of copper transport in cultured bovine chondrocytes
R.S. Fife, S. Moody, D. Houser and C. Proctor (USA) 19

Effects of the micro-environment on the photophysical properties of hematoporphyrin
J. VanSteveninck, J.W.M. Lagerberg, P. Charlesworth, T.M.A.R. Dubbelman and T.G. Truscott (The Netherlands, UK) 23

Induction of heat shock 70 mRNA by cadmium is mediated by glutathione suppressive and non-suppressive triggers
T. Abe, T. Konishi, T. Katoh, H. Hirano, K. Matsukuma, M. Kashimura and K. Higashi (Japan) 29

Elimination of self-association as the source of the thermodynamic nonideality in aqueous proline solutions
G.P. Jones, L.G. Paleg and D.J. Winzor (South Australia, Australia) 37

Ontogenic and nutritional modifications in the intestinal fucosylation process at the weaning period. Influence of dietary fibers
F. Tardy, P. Louisot and A. Martin (France) 41

Effect of microwave radiation on permeability of liposomes. Evidence against non-thermal leakage
B. Bergqvist, L. Arvidsson, E. Pettersson, S. Galt, E. Saalman, Y. Hamnerius and B. Nordén (Sweden) 51

Lipase of *Pseudomonas cepacia* for biotechnological purposes: purification, crystallization and characterization
U. Bornscheuer, O.-W. Reif, R. Lausch, R. Freitag, T. Scheper, F.N. Kolisis and U. Menge (Japan, Germany, Greece) 55

A mannose-specific lectin from *Vicia villosa* seeds
R. Qian, W.X. Shi, Z.M. Shen and C. Sun (China, USA) 61

Quantitation of inhibitory G-proteins in fat cells of obese and normal-weight human subjects
J.M. Kaartinen, K.F. LaNoue and J.J. Ohisalo (Finland, USA) 69

Chemical modification of the hydroxylase of soluble methane monooxygenase gives one form of the protein with significantly increased thermostability and another that functions well in organic solvents
Y. Jiang and H. Dalton (UK) 76

Regulation of haem biosynthesis in normoblastic erythropoiesis: role of 5-aminolaevulinic acid synthase and ferrochelatase
T. Houston, M.R. Moore, K.E.L. McColl and E.J. Fitzsimons (UK) 85

Cytochrome *P*-450-catalysed monoterpenoid oxidation in catmint (*Nepeta racemosa*) and avocado (*Persea americana*); evidence for related enzymes with different activities
D.L. Hallahan, S.-M.C. Lau, P.A. Harder, D.W.M. Smiley, G.W. Dawson, J.A. Pickett, R.E. Christoffersen and D.P. O'Keefe (UK, USA) 94

Post-transcriptional inhibition of ornithine decarboxylase induction by zinc in a difluoromethylornithine resistant cell line
F. Flamigni, G. Campana, L. Carboni, C. Rossoni and S. Spampinato (Italy) 101

Characterization of 1-phosphofructokinase from halophilic archaebacterium *Haloarcula vallismortis*
V. Rangaswamy and W. Altekar (India) 106

The hexosamine biosynthetic pathway and glucose-induced down regulation of glucose transport in L_6 myotubes
M.B. Davidson, K. Hunt and C. Fernandez-Mejia (USA) 113

Can nitric oxide be spin trapped by nitrone and nitroso compounds?
S. Pou, L. Keaton, W. Surichamorn, P. Frigillana and G.M. Rosen (USA) 118

Rapid Report

Differential processing of human and rat E1α precursors of the branched-chain α-keto acid dehydrogenase complex caused by an N-terminal proline in the rat sequence
R.M. Wynn, H. Kochi, R.P. Cox and D.T. Chuang (USA, Japan) 125

Obituary — Laurens L.M. van Deenen *vii*

Regular Papers

Thin-layer chromatography and mass spectrometry of pentafluorobenzylidene derivatives of members of the phthiocerol family from *Mycobacterium tuberculosis* and *Mycobacterium marinum*
S. Hartmann, A.I. Mallet, D.E. Minnikin and M. Ridell (UK, Sweden) 129

Inhibition of tubular morphogenesis in human microvascular endothelial cells by co-culture with chondrocytes and involvement of transforming growth factor β: a model for avascularity in human cartilage
K. Tada, T. Fukunaga, Y. Wakabayashi, S. Masumi, Y. Sato, H. Izumi, K. Kohno and M. Kuwano (Japan) 135

Binding of serum amyloid P component to heparin in human serum
X.A. Li, K. Hatanaka, L. Guo, Y. Kitamura and A. Yamamoto (Japan) 143

Three-dimensional structure in solution of griseoviridin, a group A antibiotic
G. Jayaraman, R. Bhaskaran, C. Yu, J.J. Young, L.J. Jung, W.T. Liu, S.N. Ho and L.R. Chang (Taiwan) 149

The 80 kDa cytosolic protein that binds the C-terminal part of rat acyl-CoA oxidase is not a peroxisomal import receptor but a prolyl-endopeptidase
M. Fransen, C.A.E. Brees, B. De Béthune, P.P. Van Veldhoven and G.P. Mannaerts (Belgium) 157

Free radical-mediated oxidation of lipids induced by hemoglobin in aqueous dispersions
Y. Yoshida, K. Kashiba and E. Niki (Japan) 165

Enhancing effect of ATP on intracellular adriamycin penetration in human ovarian cancer cell lines
R. Maymon, B.B.-S. Maymon, M. Cohen-Armon, M. Holtzinger and J. Leibovici (Israel) 173

Contributions of suspending medium to electrical impedance of blood
T.-X. Zhao (Sweden) 179

A culture force monitor for measurement of contraction forces generated in human dermal fibroblast cultures: evidence for cell-matrix mechanical signalling
M. Eastwood, D.A. McGrouther and R.A. Brown (UK) 186

The purification and partial characterization of bone resorptive polypeptides from bovine bone matrix
P.A. Hill, J.J. Reynolds and M.C. Meikle (UK) 193

The peroxisomal β-oxidation enzyme system of rat heart. Basal level and effect of the peroxisome proliferator clofibrate
J. Kvannes, T.S. Eikhom and T. Flatmark (Norway) 203

Heparin and heparan sulfate enhancement of the inhibitory activity of plasminogen activator inhibitor type 1 toward urokinase type plasminogen activator
T. Urano, K. Serizawa, Y. Takada, T. Ny and A. Takada (Japan, Sweden) 217

Regulation of plasminogen activator inhibitor-1 (PAI-1) expression by 1,25-dihydroxyvitamin D-3 in normal and malignant rat osteoblasts
S. Fukumoto, E.H. Allan and T.J. Martin (Australia) 223

Developmental changes in mucosal iron binding proteins in the guinea pig. Expression of transferrin, H and L ferritin and binding of iron to a low molecular weight protein
M.M. Kozma, G. Chowrimootoo, E.S. Debnam, O. Epstein and S.K.S. Srai (UK) 229

Mitochondrial gene expression in *Saccharomyces cerevisiae*. IV. Effects of yeast cytosol on mitochondrial protein synthesis, degradation, and respiration
E.E. McKee (USA) 235

The interaction of cytochrome *c* and the heme domain of cytochrome *P*-450$_{BM-3}$ with the reductase domain of cytochrome *P*-450$_{BM-3}$
M.L. Klein and A.J. Fulco (USA) 245

Expression and properties of the recombinant lumazine (riboflavin) protein from *Photobacterium leiognathi*
B. Illarionov, V. Illarionova, J. Lee, W. Van Dongen and J. Vervoort (The Netherlands) 251

Intracellular Ca^{2+} concentration change of T24 cell under irradiation in the presence of TiO_2 ultrafine particles
H. Sakai, E. Ito, R.-X. Cai, T. Yoshioka, Y. Kubota, K. Hashimoto and A. Fujishima (Japan) 259

Inhibition of T_3-receptor binding by Nitrofen
A.E. Brandsma, D. Tibboel, I.M. Vulto, J.J.M. De Vijlder, A.W. Ten Have-Opbroek and W.M. Wiersinga (The Netherlands) 266

Characterization and partial purification of an ATPase and inorganic pyrophosphatase of the archaebacterium *Methanobacterium thermoautotrophicum*
R. Roth and R. Bachofen (USA) 271

Nitroxide stable radical prevents primaquine-induced lysis of red blood cell
L.N. Grinberg and A. Samuni (Israel) 284

NADH oxidation is stimulated by an intermediate formed during vanadyl–H_2O_2 interaction
H.N. Ravishankar, P. Kalyani and T. Ramasarma (India) 289

Stimulation of cartilage resorption by extracellular ATP acting at P_2-purinoceptors
W.S. Leong, R.G.G. Russell and A.M. Caswell (UK) 298

A spectrophotometric method for the determination of heparan sulfate
C.H.A. Van de Lest, E.M.M. Versteeg, J.H. Veerkamp and T.H. Van Kuppevelt (The Netherlands) 305

(1,3)β-Glucan synthase activity of *Neurospora crassa*: identification of a substrate-binding protein
P.D. Awald, D. Frost, R.R. Drake and C.P. Selitrennikoff (USA) 312

Utilization of intracellular acylcarnitine pools by mononuclear phagocytes
L. Kurth, P. Fraker and L. Bieber (USA) 321

Rapid Report

Quantitative analysis of superoxide anion generation in living cells by using chemiluminescence video microscopy
E. Suzaki, E. Kawai, Y. Kodama, T. Suzaki and T. Masujima (Japan) 328

Regular Papers

Teichuronic acid of the cell wall of *Actinoplanes brasiliensis*
A.S. Shashkov, H. Kochanowski, Y.I. Kozlova, G.M. Streshinskaya, I.B. Naumova, L.P. Terekhova and O.A. Galatenko (Russia, Germany) 333

Stereochemistry of 2,4-dimethyleicos-2-enoate from the pyruvylated glycolipid of *Mycobacterium smegmatis*
S. Hartmann, G.S. Besra, J.L. Fraser, W.A. König, D.E. Minnikin and M. Ridell (UK, Germany, Sweden) 339

Molecular dynamics simulation of the rare amino acid LL-dityrosine and a dityrosine-containing peptide: comparison with time-resolved fluorescence
A.J. Kungl, M. Breitenbach and H.F. Kauffmann (Austria) 345

Cell manipulation and cultivation under a.c. electric field influence in highly conductive culture media
G. Fuhr, H. Glasser, T. Müller and T. Schnelle (Germany) 353

Glycosylation of yeast exoglucanase sequons in *alg* mutants deficient in the glucosylation steps of the lipid-linked oligosaccharide. Presence of glucotriose unit in Dol-PP-$GlcNAc_2Man_9Glc_3$ influences both glycosylation efficiency and selection of *N*-linked sites
M.D. Muñoz, L.M. Hernández, R. Basco, E. Andaluz and G. Larriba (Spain) 361

Dextran sulfate binding to isolated rat glomeruli and glomerular basement membrane
S.V. Vyas and W.D. Comper (Australia) 367

Further characterization of the gelatinase-containing particles of human neutrophils
F. Morel, B. Dewald, S. Berthier, P. Zaoui, A.C. Dianoux, P.V. Vignais and M. Baggiolini (France, Switzerland) 373

Fasciculin inhibition of acetylcholinesterase is prevented by chemical modification of the enzyme at a peripheral site
R. Durán, C. Cerveñansky, F. Dajas and K.F. Tipton (Uruguay, Ireland) 381

Identification of genetic events involved in early steps of immortalization of mouse fibroblasts
S.C. Kaul, R. Wadhwa, T. Sugihara, K. Obuchi, Y. Komatsu and Y. Mitsui (Japan) 389

Characterization of distinct forms of methionine adenosyltransferase in nucleated, and mature human erythrocytes and erythroleukemic cells
B. Langkamp-Henken, A.M. Geller, H.L. LeGros, Jr., J.O. Price, J. De La Rosa and M. Kotb (USA) 397

Molecular cloning and functional expression of a mouse cytochrome *P*-450 (Cyp3a-13): examination of Cyp3a-13 enzyme to activate aflatoxin B_1 (AFB_1)
T. Yanagimoto, S. Itoh, M. Sawada, H. Hashimoto and T. Kamataki (Japan) 405

Effect of alcohol on the activity and subcellular distribution of phosphatidate phosphohydrolase in rat liver
K.J. Simpson, S. Venkatesan, A. Martin, D.N. Brindley and T.J. Peters (UK, Canada) 411

Isolation and characterization of circulating complex between human pregnancy-associated plasma protein-A and proform of eosinophil major basic protein
C. Oxvig, O. Sand, T. Kristensen, L. Kristensen and L. Sottrup-Jensen (Denmark) 415

The growth of *Escherichia coli* in glucose-limited chemostat cultures: a re-examination of the kinetics

H. Senn, U. Lendenmann, M. Snozzi, G. Hamer and T. Egli (Switzerland) 424

Physical and chemical interactions between nitric oxide and nitroxides
R.J. Singh, N. Hogg, H.S. Mchaourab and B. Kalyanaraman (USA) 437

Regulation of neutrophil activation by oleic acid
A.A.-R. Higazi and I.I. Barghouti (Israel) 442

Peptidyl thioamides as substrates and inhibitors of papain, and as probes of the kinetic significance of the oxyanion hole
K.L. Foje and R.P. Hanzlik (USA) 447

Duplex and triplex directed DNA cleavage by oligonucleotide-Cu(II)/Co(III) metallodesferal conjugates
R.R. Joshi and K.N. Ganesh (India) 454

Kinetic analysis of the intracellular conjugation of monochlorobimane by IC-21 murine macrophage glutathione-*S*-transferase
P.R. Young, A.L. ConnorsWhite and G.A. Dzido (USA) 461

A new *S*-adenosylmethionine decarboxylase from soybean axes
Y.S. Choi and Y.D. Cho (Korea) 466

Purification and characterization of eukaryotic translational initiation factor eIF-2B from liver
S.R. Kimball, A.M. Karinch, R.C. Feldhoff, H. Mellor and L.S. Jefferson (USA) 473

A potent antihemorrhagin in the serum of the non-poisonous water snake *Natrix tessellata*: isolation, characterization and mechanism of neutralization
G. Borkow, J.M. Gutierrez and M. Ovadia (Israel, Costa Rica) 482

Phytanic acid α-oxidation in rat liver mitochondria
K. Pahan, S. Gulati and I. Singh (USA) 491

The effects of glutathione and ascorbic acid on the oxidations of 6-hydroxydopa and 6-hydroxydopamine
A.J. Nappi and E. Vass (USA) 498

Chemical and biological characterization of oxo-eicosatetraenoic acids
J.T. O'Flaherty, J.F. Cordes, S.L. Lee, M. Samuel and M.J. Thomas (USA) 505

3-Aminobenzamide enhances dexamethasone-mediated mouse thymocyte depletion in vivo: implication for a role of poly ADP-ribosylation in the negative selection of immature thymocytes
J. Hoshino, C. Koeppel and E. Westhäuser (Germany) 516
